

## **Pandemrich (The flu)**

So now we're here  
both me and you  
We're full of fear  
we fear the flu

We fear the flu  
But why do we?  
It won't kill you,  
it won't kill me

The reason is  
it kills the young  
It shows a life  
might not be long

Some get pandemrich and famous  
fighting the pandemic  
No, you cannot really blame us  
A pandemic is panic gone endemic

The reason is  
it kills the healthy,  
vegans, stars  
and superwealthy

You resent it  
but it's no lie  
Can't prevent it  
you will die  
You resent it

Some get pandemrich and famous  
fighting the pandemic  
No, you cannot really blame us  
A pandemic is panic gone endemic

A pandemic is panic gone endemic  
A pandemic is panic gone endemic  
A pandemic is panic gone endemic
