

Privacy Ltd.

I might do
something wrong
very soon
or later on
But why keep track
of what I did
way way back?
Who's it for
what's it for?
Don't know
I don't know

What is crime
What is not?
Who's to say
and who is not?
Who will keep
data safe
Our data safe?

The bottom line
is that the
bottom line
is what counts
But if the cost
is too high
then data's lost
Someone will
clearly try
to buy
Try to buy

Who will have
men and time
to make sure
there's no crime
FBI's
CIA's
all those TLAs?

My IP
DSL
cell ID
they can sell
Every time
when I log
I log me on
