

Zero (you are my number one)

No natural number precedes you
Not plus or minus, in-between
Circle with dot or strikethrough
Nobody knows what you mean

They say you're nothing, nil!,
But zero, you're my number one
If everything's void, I will
love you till the day you're gone

Zero decibel means we barely hear it
but it's not the same as lack of sound
Silence, yes, we clearly fear it
but there's quite some more of it around

Zero's no number, they say
but it is more than enough for me
Zero will be here to stay
as it's everything we want it to be

They say you're nada, nil!,
But zero, you're my number one
If everything's void, I will
love you till the day you're gone

Zero Celsius means water freezes
but it's not as cold as can be
Kelvin complains as much as he pleases
It doesn't bother me at all

They say you're nada, nil!,
But zero, you're my number one
If everything's void, I will
love you till the day you're gone
